

X₂Prog Series

The X₂Prog series is a professional ECU and EEPROM Reader/Writer. The series includes 5 components: X₂Prog ECU Programmer, X₂AEP Advanced EEPROM Programmer, X₂CANBox CAN Communication Interface, X₂TPU Transponder Precoding Unit, and X₂MBIR IR Key Precoding Unit. It is divided into 3 bundle levels: Basic, Professional, and Master. This series is suitable for professional maintenance technicians.

Bundles

Bundles	X ₂ Prog	X ₂ AEP	X ₂ CANBox	X ₂ TPU	X ₂ MBIR
X ₂ Prog Basic	√ (EEPROM board included)				
X ₂ Prog ProPack	√ (EEPROM board not included)	√	√	√	
X ₂ Prog MasterPack	√ (EEPROM board not included)	√	√	√	√

Functions Listed

	<p>X₂Prog ECU Programmer</p> <ul style="list-style-type: none"> ● Base module for all plugins ● EEPROM Reading/Writing (Chip off board) (with EEPROM board) ● ECU Reading/Writing (BOOT method) (with XTA004 cable) (MC9S12 not included)
	<p>X₂AEP Advanced EEPROM Programmer</p> <ul style="list-style-type: none"> ● EEPROM Reading/Writing (Chip onboard/offboard) ● MC9S12 ECU Reading/Writing Plugin (BOOT method) (with XTA004 cable) *Allows M600 to read MC9S12 ECUs
	<p>X₂CANBox CAN Communication Interface</p> <ul style="list-style-type: none"> ● ECU Programming (Bench Method) (with XTA005 cable) ● Mercedes-Benz Communication Control in All-Keys-Lost situations (with XTA006 cable)
	<p>X₂TPU Transponder Precoding Unit</p> <ul style="list-style-type: none"> ● Transponder Reading/Writing ● Remote Frequency Reading ● Transponder Status Reading
	<p>X₂MBIR IR Key Precoding Unit</p> <ul style="list-style-type: none"> ● Mercedes-Benz Key Programming ● Read EIS/EZS Data (with XTA007 emulator) ● Read/Write IR Key Information
