Sensor

TS100 Pro

Premium Chip | Dual-Frequency Integration | Precision Matching | Long Battery Life | Reliable TPMS Solution

ADJUSTABLE FIT

10°~45° adjustable angle for flexible installation and enhanced adaptability.

WIDE COMPATIBILITY

One sensor fits 98% of vehicles, reducing the need for multiple models and saving costs.

PRECISION DATA

Accurately measures high / low pressure and temperature, ensuring driving safety.

HIGH-END CHIP

Features the latest imported NXP 88 series chip for precise data and stable performance.

LONG-LASTING BATTERY

3-5 years of normal use, minimizing the hassle of frequent replacements.

WARRANTY GUARANTEE

2-year / 40,000 km warranty for total peace of mind.

SPECIFICATIONS

Battery Life	3~5 years	Pressure Monitoring Range	0-900kPa
Operating Temperature	-40°C ~ 125°C	Pressure Accuracy	±10kPa
Adjustment Angle	10°~45° adjustable	Weight (without air nozzle)	13g
Waterproof Rating	IP67	Shell material	PA66+GF33
