

XTOOL SOFTWARE UPDATE

2026 • XTOOL Apr. Hot Items

XT90

COVERAGE HIGHLIGHTS

New Coverage Added **Bi-directional Tests, Basic and Special Functions**

- Mercedes-Benz
- Nissan & Infiniti
- Hyundai
- Honda & Acura
- GM

New Coverage Added **EV Diagnostics**

- Dongfeng Nano
- Geely Galaxy
- Geely Monjaro

New Coverage Added **Key Programmers**

- NETA
- BAIC
- GAC Trumpchi
- Chip Repair
- Geely Auto
- BYD EV
- Nissan EV

MAJOR CAR DIAGNOSTIC TOOLS UPDATE

Mercedes-Benz **V24.40**

- Added basic function upgrades to 80 systems across driving, chassis, body, seats and doors, information and communication, and driver assistance systems for CLA, C, S, and E-Class models from 2013 onwards; 216 action tests including electric parking brake, steering wheel heater, mirror glass, and door sunshades; 133 special functions including general maintenance confirmation, restoration to pre-maintenance state, factory settings, and pedal angle sensor calibration.

Nissan&Infiniti **V15.00**

- Added 64 special functions to 251 models from 1993 to 2024, including NV400, ROGUE, X-TRAIL, PULSAR, QASHQAI, NOTE, ALTIMA, ALTIMA Hybrid, and ALTIMA Coupe: ESP automatic reconnection threshold, target gear check, steering angle sensor adjustment, PTO registration, SCR catalytic converter, air-fuel ratio learning, valve timing adjustment, and maintenance regeneration.
- Added 32 special functions to 56 models from 1995 to 2024, including QX30, QX50, Q50 Hybrid, G20, I30, M45, and Q45: Acceleration sensor calibration, clutch 1 position learning, clearing restart-prevention data, ECU locking, downshifting, lithium-ion battery charge adjustment, and clearing battery information.

Hyundai **V15.10**

- Added read DTCs, clear DTCs, live data, actuator test, version info and freeze frame for all systems, including engines, transmissions, ABS, and airbags, for 10 Hyundai models (G70, G80, G90, GV70, GV80, etc.) in the US region (2023-2026).
- Added read DTCs, clear DTCs, live data, actuator test, version info, and freeze frame for all systems, including engines, transmissions, ABS, and airbags, for 43 Hyundai models (Elantra, G90, GV70, IONIQ5, Sonata, Casper, etc.) in the Korean region (2023-2026).

FIAT & Alfa Romeo **V13.00**

- Added 349 special functions to 22 models after 2017, including Novo Uno FL, 500, DUCATO BEV, GIULIA, STELVIO, and TIPO MHEV: ECU replacement, fuel tank replacement, seatbelt reminder disabling/enabling, LIN check request, body computer reset, pressure sensor replacement, HVAC cooling test, etc.

Honda & Acura **V13.70**

- Added read version info, read DTCs, clear DTCs, read live data, read freeze frame, actuator test, and special functions for 83 systems, including the serial data gateway module, braking system control module, forward-looking long-range radar sensor, drive motor control module, and battery energy control module for 2024-2026 Prologue and Acura ZDX models.

Peugeot Citroën **V13.20**

- Added BASALT model in basic diagnosis.

Opel **V12.30**

- Added a special function link entry for automatic vehicle model recognition menu.
- Added one-click special functions for 19 models from 2009-2023, including Astra, Crossland X, Corsa, Combo, Grandland X, and Zafira, supporting maintenance reset, battery matching, throttle adaptation, DPF regeneration, and EPB electronic brake reset.

GM **V15.40**

- Added read version info, read DTCs, clear DTCs, read live data, read freeze frame, actuator test, and special functions for 45 new 2026 models (including Enclave, Encore GX, Envision, Envista, Celestiq, CT4, CT5, Escalade, Escalade ESV, Escalade IQ, Lyriq, Optiq, Vistiq, XT4, XT5, XT6, Blazer, Cobalt, Colorado, Corvette, Equinox, Express, Malibu, Max, Montana, Onix, Optra, Prisma, S10, Silverado, Spin, Suburban, Tahoe, Tracker, Trailblazer, Trax, Travers, Acadia, Canyon, Hummer, Savana, Sierra, Terrain, Yukon, and Yukon XL).

VW **V16.30**

- Added support for DPF and GPF functions: Audi, FAW-Audi, Volkswagen, Shanghai Volkswagen, FAW-Volkswagen, Business Volkswagen, Skod, Shanghai Škoda (Only applicable to certain model years).

MAJOR EV DIAGNOSTICS UPDATE

Battery pack data **V5.80**

- Added battery pack data for Hyundai, GM, Volvo, and Ford.

Dongfeng Nano **V5.20**

- Added basic functions such as read version info, read DTCs, clear DTCs, read live data, and actuator test for the Nano 01 International Exit Vehicle (General regions) and Nano 01 International Exit Vehicle (Aegean Sea) models.

Skyworth Auto **V5.30**

- Added battery pack detection function for HT-i and EV6 models.

Geely Galaxy **V5.16**

- Added basic functions such as read DTCs, clear DTCs, and version info for the Galaxy E5 model.

Geely Monjaro **V5.15**

- Added the function to reset the maintenance reminder indicator light for the Geely Boyue COOL.

MAJOR Key Programmers UPDATE

NETA **V26.13**

- Added NETA S, NETA GT, NETA S Hunter Suit, NETA L, and NETA X 2024 models.

BAIC **V27.50**

- Added key programming functionality for the Extreme Fox series. Includes: Alfa T; Alfa S; Alfa T5; Alfa S5; Koala; T1.

GAC Trumpchi **V26.73**

- Added support for GS3 POWER, GS8S, second-generation GS4, GA5 PHEV, GA8, GE3 530, Trumpchi ES9, second-generation GS4 PHEV, M6 MAX, GS4 COUPE, GS4 MAX, and the all-new Trumpchi GA8.
- Added PIN-free key programming functionality for GAC Trumpchi and Aion models.

Chip repair **V6.70**

- Added read/write functionality for Land Rover high-voltage battery (SPC5606B) chip.
- Added read/write and repair functionality for Land Rover 12V lithium battery (R5F113GK) chip.
- Added read/write and repair functionality for encrypted and unencrypted chips of Volkswagen tire pressure monitoring module (MC9S12XS256).
- Added read/write functionality for Volvo 48V lithium battery chip.

Geely Automotive **V27.70**

- Added Galaxy E8 vehicle model menu.
- Added DoIP protocol function with type selection.
- Added password lookup menu and function.

GAC Trumpchi **V27.75**

- Added IMMO Matching function for Aion i60 model.
- Added multi-language software package for GAC Trumpchi New Energy vehicles (Covering 25 languages).

BYD EV **V26.65**

- Added BYD NFC card matching function.

Nissan EV **V27.65**

- Added multi-language software package for New Nissan EVs (25 languages), including key programming for the N7 model (Only compatible with EV devices).
